and Recovery**

# ABOUT

Blackbriar Holdings is a Global Financial Services Company specializing in all phases of asset location and recovery. We offer a wide range of services to individuals and corporate clients alike. We are highly experienced professionals who work on your behalf to return the assets that rightfully belong to you.

Throughout our history we have successfully recovered funds for major corporations, individuals, small businesses and even foreign government.

We specialize in the following areas:

Civil Judgment Recovery

Recovery of Unclaimed Funds

Recovery of Unpaid Debt

## Unclaimed Funds

We take all cases on a contingency basis and there are never any up-front fees of any kind. We advance all expenses incurred handling your claim. We will handle all proceedings. There is no obligation to you. Most importantly if we do not collect any money then you owe us nothing. Some of the types of Unclaimed Funds we handle are as follows:

- Bankruptcy Funds
- Mortgage Surplus Funds
- HUD/FHA Refunds
- Unclaimed State Funds
- Life Insurance Policies
- FDIC Funds

The amount of funds that go unclaimed are astronomical. Various estimates place the total amount of unclaimed funds owned by Americans anywhere from billions to a trillion dollars.

## Judgment Recovery

If you have a court awarded judgment against an individual or a business, we will utilize a number of legal methods to satisfy your judgment. These can include liens on property, foreclosures, wage garnishment, bank account seizure, income interception, negotiated payments etc. The method employed depends on the debtor's individual situation and level of cooperation. We use aggressive but legal methods that have been proven effective.

Many of our clients choose to simply sell their uncollected Judgment as opposed to try and collect it. This process is usually much faster and allows receipt of funds a lot quicker. Please provide us all information about the Judgment and we will contact you with a purchase price for your Judgment.
